

Delivering the difference

We make sure that  
IT fits you

**Mugurel**

#### **Profile**

Mugurel is a hosting business with a very well defined goal: "To offer a personalized service, a partnership to online businesses". We have team up with one of the best partners in the industry to offer you the reliability your business needs.

Mugurel business is located in the Philippines Islands, managed by Mugurel Dragusin with his experience of over 8 years in IT&Communications, backed-up by a top sales executive with more than 5 years experience.

We are not big and we don't tend to look like that, we are small and dedicated to a personalized service, it's up to you how do you want your business to be treated.

#### **Why do business with us**

Because we don't just sell out some space on the web for your website. You invest in the future of your website by making sure it's taking good care of, by constant manual monitorizing, analyzing and support. You, as a business man, have to run a business not a technical endeavour, that's our side, you need your time to manage.

#### **Pricey?**

Think twice. As we mentioned before, we don't sell you some space to keep your website online but we consider ourselves as an reliable partner for the long run of your company, where we take care of your website, giving manual attention to each detail so you take care of your business.

You need a help with setting up a small additional feature, just let us know and we will work with you on making it becoming lucrative, without telling you that we added more money to your bill.
